

The Faculty of Dentistry The University of Jordan

The 7th Scientific Conference
Faculty of
Dentistry
2014

Is organizing a training course presenting

Dr. Henry Salama

“Optimizing Clinical Outcomes in Complex Esthetic and Implant Therapy: Success By Design”

HENRY SALAMA, DMD

World renowned lecturer and clinician specializing in advanced implant and esthetic oral rehabilitation. Dr. Salama is a periodontist and prosthodontist. He is a partner in the Atlanta Esthetic Dental Practice known as “Team Atlanta”. This group has an international reputation for interdisciplinary care, dental education and has published hundreds of articles and several textbooks.

WHO SHOULD ATTEND THIS COURSE:

This interdisciplinary program is designed to guide all clinicians – restorative dentist, surgeon, orthodontist, as well as the laboratory technician – to make correct decisions when treating the esthetically demanding patient.

COURSE OBJECTIVES

- 1) Identification of the principles and guidelines in esthetic therapy.
- 2) Determination of the risk factors in anterior implant therapy.
- 3) Exploring the five most important diagnostic components leading to a successful treatment design for an esthetic implant supported restoration.
- 4) Incorporating minimally invasive esthetic protocols.

**Course Duration: 5 hours
Fees: 150 USD (100 JD)**

Place and Time

Thursday 12/6/2014 @ 12:00 noon

The University of Jordan – Saeed Mufti Auditorium
